

“Branches of Laurel” Newsletter:

Index to Table of Contents

1986 – 2015

Compiled by

Danna C. Estridge

January 2016

HOW TO USE THIS BOOK

About This Book

This book is a complete listing of the articles contained in the Table of Contents of every issue of the Laurel County Historical Society's newsletter, "Branches of Laurel," from the first issue, published in June 1986, through the most recent issue (at the time of this writing), published in November 2015.

This is NOT an index of every subject and surname contained in the newsletter. It is ONLY a list of the article names in the Table of Contents of each issue. It is not, therefore, a complete guide to everything contained in the newsletters. It can, however, be an important resource for more easily locating information within "Branches of Laurel" concerning the surnames and/or subjects you are researching.

How to Use This Book

This book has two sections. The first, and probably most useful for most researchers, is on pages 1 through 48 and is listed alphabetically by key words (categories), such as "births," "deaths," "marriages," "schools," "churches," etc., as well as surnames and place names, such as "London," or "Boones Trace." Listings are also alphabetical within each key word.

Many articles have more than one surname or more than one subject. To make it easier to locate every surname and subject, each article with multiple names and/or subjects has a separate entry for each. For example, an article titled "James McNeil's Company, War of 1812" will be listed under both "M" for "McNeil" and "W" for "War of 1812."

Likewise, an article with the title "Marriage Certificate for Henry Mills and Nicy Jones" will be found under both "M" for "Mills" and under "J" for "Jones." However, it will not be listed under the generic heading "Marriages."

Several articles are listed under the key word "Historical Society," which is short for "Laurel County Historical Society." Subjects relating to the Historical Society and its members, such as "Letter From the President," "Editor's Note," "Treasurer's Report," or "Publications Price List and Order Form," etc. are listed under the key word category "Historical Society."

Surname spellings can vary widely. When more than one spelling is listed in article titles, such as "Faris/Farris," each spelling is listed individually in the key word category. When a surname associated with a "Query" is listed in the Table of Contents, it is included in the listing. Otherwise, the generic term "Query" is used alone.

The second section of this book, on pages 49 through 90, lists each issue of the newsletter in chronological order, from June 1986 through November 2015, along with the article titles, month, year, and page number. These listings appear in the same order in which they are listed in the Table of Contents of each issue. This section is included mostly for those researchers who want to know what each year of the newsletter contains.

Every effort has been made to make this work as complete and accurate as possible. However, there may be mistakes, both typographical and in content. Therefore, this work should be used only as a general guide and not as the ultimate source of information on the subject(s) covered herein.

The purpose of this work is to educate and entertain. Neither the compiler nor the publisher shall have neither liability nor responsibility to any person or entity with respect to any loss or damage caused, or alleged to have been caused, directly or indirectly, by the information contained in this work.

This book is meant to be a guide to assist researchers in locating surnames and subjects contained within the issues of the Laurel County Historical Society's newsletter, "Branches of Laurel" from 1986 through 2015. The compiler hopes you find it useful for that purpose.
